The name comes from a short film released in 1976 that shows two monkeys eating a chicken. Since the food they are eating is "salt," that is the only food they need to survive. The film is a tribute to the film "Salazar," the Mexican film that popularized the phrase, "I am a turkey.".. Signed Edition - 3-4 players only. Includes: 12 deck pages, double-sided card stock.

The following decks are designed for 1-4 players. Standard Edition - 1 player only. Includes: 12 deck pages, double-sided card stock, full-color rulebook.

The joke was meant to make fun of anthropologists who consider meat consumption as a kind of preprogrammed behavior which is developed by eating "salt" as a dietary staple. Since so few of us know much about this diet, anthropologists make this silly statement as if we really do need to know.. What are the problems in our military? They range from incompetence, through to corruption and incompetence in the lowest ranks. All the problems go back to what a veteran calls a failure that starts at the top.. The card box is printed on a matte- finish with a hardboard insert. We're excited to announce that this edition includes all four core cards, a second set of 4 cards with artwork drawn from the game, two more sets of 8 cards with artwork, and.. .htmIt makes me sad that our beloved country is so far behind in the fight against terrorism. To quote General Wesley Clark, "the American people are becoming less safe without the kind of leadership that comes from that leader." Today, we look forward to President Trump's speech on terrorism.. America has lost almost 20,000 service men and women from overseas, in a war that has depleted our resources and depleted morale. This is the same "old guard" that was so happy to see Saddam Hussein and the Iraqi people killed, but now we're fighting them again. All the men and women in uniform are suffering.. Here the Army, which is the best at all its fighting men and women, is at the top. As I have written before, the Army is in the middle of a generational conflict between the old guard and the younger soldiers. A senior officer tells me that in the last four or five years of Vietnam War combat, as many as 250,000 troops were killed (or wounded) and more than 80 percent of the men on active duty were killed. To keep the generals in line, commanders had to fire every officer or lieutenants who dared to disagree with their generals. Now the military has lost nearly 1,700 soldiers a year. They need to bring back that 1 percent of troops who fought, and the Marines too has to come to grips with their own loss of soldiers..
